

# Albany Senior High School Professional Learning Policy

## Purpose

Albany Senior High School is a community of learners; we value learning together.

We aim to celebrate and cultivate the gifts our staff bring that enrich our community.

Research shows that greatly improved outcomes for students occur in schools where staff are engaged in stimulating professional learning and discussion.

## Guidelines

1. Professional Learning should:
  - Focus on inquiry
  - Integrate theory and practice
  - Support school-wide development
  - Provide opportunities for individual development and support
  - Maintain a continual focus on improving outcomes for students
2. The Principal will develop a professional learning programme, and budget, that will reflect curriculum, individual, and school wide objectives which enhance and reflect the Albany Senior High School vision and values.
3. Applications for professional learning need to be in writing and need to include costs, purpose, and method of reporting back or implementation.
4. The Board of Trustees will approve the professional learning programme as part of the budget process, and will receive regular reports on expenditure and progress made in achieving objectives.
